

# Bitstream Access over Fiber-To-The-Home

5  
Cities

1.24 Gbps  
Gigabit Speed

970k premises  
passed in urban areas

2.900 km  
fibre laid

## Product Benefits

### Broaden your portfolio

Add the fastest possible broadband services to your product portfolio

### Win more business

Win customers through offering fibre-based broadband services at significant speeds.

### A growing footprint

We're already present on the main Spanish cities and we are committed to expanding our pure fibre coverage nationwide

### A range of speed tiers

From 100Mbps all the way up to 1.24Gbps, we've got Ultrafast speed tiers to meet the needs of consumers and businesses alike.

## Product Features

### Symmetrical speed

Symmetrical speeds of up to 1Gbps.

### Service profiles

Multiple OLT service profiles for different bandwidth and QoS

### Virtual LAN connection

Always on Virtual LAN (VLAN) fibre connection from the exchange Optical Line Terminator (OLT) to your customers Optical Network Termination (ONT) in their premises.
